

RUSTDEEZ™

Shotgun Shell Brass Cleaning Socket

IMPORTANT SAFETY INFORMATION

You are cleaning the brass on unfired shotgun shells.
Failure to follow these instructions could result in serious injury or death.
Users under 18 require adult supervision.

CLEANING INSTRUCTIONS

Clean all bases first. Then clean the sides of the brass.
Use 0000 fine steel wool and oil of your choice.
Brass may require multiple passes.
Allow 3-5 minutes cooling between cleanings.

INTENDED USE

Removes corrosion and residue from shotgun shell brass and reduces swelling that causes chambering or extraction issues (**Bad Brass**).

INSPECTION REQUIREMENT

Inspect each shell before cleaning.
Do not use shells that are structurally compromised.

TIME LIMITATION (IMPORTANT)

Do not clean longer than 5-10 seconds per shell.
Stop immediately once clean.

SAFETY NOTICE

Use only unfired shells • Do not strike or heat primers • **Wear eye protection and leather gloves** • Keep out of reach of children • User assumes responsibility

IMPORTANT DISCLAIMER

RUSTDEEZ™ is a standalone tool and not ammunition or affiliated with firearm manufacturers.

The RUSTDEEZ™ Pledge

Every shell purchased is a shell fired.
If you're serious, you own it.
Polish the brass. Fire what you paid for.

WARRANTY

Lifetime socket warranty.
